By Associated Press Leased Wire

On Board Senator's Special Train, Oct. 15.—In a whirlwind trip through southern Indiana today Senator Harding continued his warfare against the Versailles League of Nations and asked for "a return to the constitution" through the election of a republican administration and a republican congress.

Leaving Louisville, Ky., this morning, he was to reach Indianapolis during the afternoon after numerous short stops for speeches from the rear platform of his private car. Tonight he will speak in the Indiana capital and tomorrow night will wind up his trip with a speech in St. Louis. The places at which his train was to make stops during today included New Albany, Jeffersonville, Scottsburg, Seymour, Columbus and Frankfort.

Among the senator's guests on his special train were Senator James E. Watson and several republican nominees for congress. Senator Harding spoke for the election of each of them telling his crowds that if they were to have a republican president it would be better to make a clean job of it and choose a congress that would cooperate with him. He praised Senator Watson's record of service, declaring him to be one of the most useful of the men in national public life.

In a speech at Louisville, Ky., last night, Senator Harding, while devoting a great part of his address to discussion of the foreign trade of the United States and republican plans for the future, said "it is to our faces toward an association with the other nations of the world under which each may be free to express and maintain its own nationalism, but in which the mutual commercial and trade problems can be worked out." The republican nominee's address said:

"I desire to declare to you and through you to the American people that I stand for the full development of our foreign trade. We look back now upon several years of our national history, when the expansion of our foreign trade, as in some way it had to do with an oppression of the weak by the strong. But both at home and abroad, in American business and in American foreign trade, it has been republican policies which have maintained high standards of

**Franklin Grove is Again Robbery Scene**

There is nothing slow about Franklin Grove. That village does not take a back seat for any of them. Not even in the matter of "crime waves." The latest occurrence to stir up excitement was a burglary of a downtown store there last night. The Smith & Hull hardware store was the victim. At about 1 a. m. the thieves, driving up in an automobile, were heard breaking into the store, which is on the main street. The neighbors who heard them did not attempt to give an alarm and after a brief and rather fruitless raid of the store the thieves got in their car, tooted their horn deservingly and tore out of town.

This morning a casual inspection of the stock by the proprietors shows only a few razors and knives, although more goods may have been taken without being missed.

# WANDERER MAY DENY KILLING WIFE: STRANGER

## Indications Are Confession Will Be Repudiated.

By Associated Press Leased Wire

Chicago, Oct. 15.—Intimation by attorneys for Carl O. Wanderer that a confession of the murder of his wife and a "ragged stranger" had been exacted from the former army officer by third degree methods, caused the belief that Wanderer would abandon a pre-supposed insanity plea and would deny from the stand that he shot to death his wife and the unidentified tramp during a faked hold-up.

These unexpected tactics by Wanderer's counsel came during cross-examination of policemen, to whom Wanderer is said to have confessed. They denied that the ex-leutenant had been cursed and beaten and threatened with the return of his wife's spirit during the questioning which terminated in his confession, which rebuffed testimony that both revolutionists found after the shooting had been in Wanderer's possession, the accused man's lawyers sought to show he had refused to identify the weapon he had used, fearing his cousin from whom he had borrowed it, would be arrested.

It is expected Miss Julia Schmidt, with whom Wanderer is said to have had a liaison, will go to the stand this afternoon to tell of her relations with him before and after the death of his wife.

**Charge Espionage in Alabama Mines**

By Associated Press Leased Wire

Indianapolis, Ind., Oct. 15.—The United States government will be asked by the United Mine Workers of America to make an investigation and ascertain whether espionage is practiced in Alabama coal mines, it was said at the headquarters of the organization here today. Developments in the strike of coal mine in Alabama indicate that such is the case, officials of the organization said.

The United Mine Workers Journal, in an article published today, says a number of mines in Alabama are surrounded by high board fences, with small guard houses at the openings. At other mines there are guard houses, it says, although there is no fence. The article points out that armed guards are stationed in these houses to prevent anyone from entering or leaving the camp without permission.

**BRITAIN STOPS ALL EXPORTS OF COAL AS MINE STRIKE IMPENDS**

London, Oct. 15.—(By the Associated Press).—Political discussion has been excited throughout the Baltic states by the arrival in this city of Rudolph Holsti, Finnish minister of foreign affairs to conduct negotiations with M. Dombek, head of the Polish peace mission which reached a preliminary peace agreement with soviet Russia late last week. His arrival is looked upon as confirmation of insistent rumors that Finland and Poland have made a secret agreement that neither will complete a separate peace with the bolshevik until the two countries reach a perfect understanding and lay the foundation for a Baltic union, in which the two countries would be the backbone.

Latvia, Estonia and Lithuania, being smaller than Finland and Poland, have regarded them with suspicion, and Poland's aggressive action against Lithuania has added to this distrust. The three small countries, however, are so fearful of the bolshevik that they realize they cannot stand alone, and it seems likely the organization of a Baltic union may be effected soon.

As bearing upon the relations between Finland and Poland and between the two nations named and soviet Russia, it may be noted that a Helsinki dispatch Thursday night reported that a peace treaty between Finland and soviet Russia had been signed that day at Dorpat, Estonia.

**No Food Shortage.**

The government has made every preparation to cope with the situation, to maintain food supplies and to provide for other necessities. No fear is expressed of a food shortage in the immediate future.

The ministry of transport today issued a statement regarding the railway service in the event of a coal strike. It says the passenger services would not be curtailed the first two or three days of the strike, full service being kept up to allow the people to travel home. After that pressure has subsided, however, there would be a reduction in passenger service of from 10 to 20 per cent.

In connection with the embargo on the export of coal the government this afternoon prohibited foreign ships from taking bunker coal.

**To Check Up Supply.**

American shipping board officials here were told by the British coal controller's department this afternoon that the order prohibiting the coaling of foreign ships was issued to enable the checking up of available supplies. The officials were given assurances that after this had been done passenger and mail carrying vessels would receive first consideration in the allocation of stocks on hand.

**U. S. HAS RESERVE.**

By Associated Press Leased Wire

Washington, Oct. 15.—The turn around of American ships in British ports will not be slowed up by the embargo placed on the export of coal by the British government officials of the shipping board said today. It was explained that most American vessels clearing for English ports coal for the round trip on this side. To meet any emergencies the board has an adequate reserve supply of bunker coal on the other side.

# NEW GOVERNMENT AT VILNA ORDERS ALL LITHUANIANS AWAY

## New Phase of Situation in Poland is Brought to Light.

Warsaw, Oct. 14.—(By the Associated Press).—General Zeligowski, head of the new government formed at Vilna after its recent occupation by his troops, has sent the old Lithuanian government at Kovno an ultimatum demanding that all the Lithuanian troops be withdrawn twenty kilometers to the west of the Vilna-Grodno railway. The ultimatum contained a 24-hour time limit.

Meanwhile General Zeligowski's troops are taking positions in various parts of the newly claimed territory.

The establishment of the provisional government of central Lithuania, the name adopted by the new regime at Vilna, is absorbing virtually all attention of the various Polish government officials and has replaced the Riga peace negotiations as the leading feature of the newspapers. The occupancy of Vilna also has caused a stir in the foreign ministers, particularly the British and French. They have been in constant communication with their government with reference to the questions arising from an attempt to create a new state with Vilna as its center.

**AWAIT POLISH STATEMENT.**

By Associated Press Leased Wire

Warsaw, Oct. 14.—Definition of the attitude of the Polish government concerning the occupation of Vilna by "outlaw" Polish troops will be given out in a few days. The council of ministers has had the situation arising from General Zeligowski's action under consideration since Tuesday, and it is understood it is formulating a statement on the subject.

**HINT SECRET AGREEMENT.**

Riga, Oct. 14.—(By the Associated Press).—Political discussion has been excited throughout the Baltic states by the arrival in this city of Rudolph Holsti, Finnish minister of foreign affairs to conduct negotiations with M. Dombek, head of the Polish peace mission which reached a preliminary peace agreement with soviet Russia late last week. # SOVIET LEADER PLEADS GERMAN UPRISING NOW

## Radical Addressed Convention of German Socialists.

Halle, Germany, Oct. 14.—(By the Associated Press).—For fully four hours tonight M. Zinovieff, chairman of the third international and one of the four big chiefs of soviet Russia, pleaded with the independent socialists at their convention here to join with Moscow, create a revolution in Germany and help carry out the proletarian program for a world revolution.

At the conclusion of the Russian's address the radicals of the party and the audience in the packed galleries stood with bared heads singing the international while the conservatives walked slowly out of the hall.

A great ovation was then accorded Zinovieff, with many "hoche" and cries of "Long live the international" and the waving of hats.

Through his impassioned argument the Russian orator was the storm center of cries of approval from the left wing in his audience followed by bitter words from the right. At one time he charged the German labor unions with being "no better than Noske's White Guards" and that they were tools in the hands of the capitalists.

The entire audience hissed its disapproval of this declaration.

**STARTLING EVIDENCE IN BASE BALL QUIZ EXPECTED NEXT WEEK**

And Ban Johnson Opposes Reorganization Until Report is Complete.

By Associated Press Leased Wire

Chicago, Oct. 15.—Startling developments in connection with the reorganized special grand jury's investigation of baseball gambling next week were indicated today by President Ban Johnson of the American League, in discussing his reasons for sending a telegram to President Heydler of the National League, opposing as premature, the conference of the club owners here Monday to frame new governing tribunal for professional baseball.

Johnson admitted having wired President Heydler his belief that the conference of major league club owners scheduled for Monday, would be a mistake in view of the incomplete work of the Cook county grand jury. He said:

"This grand jury has accomplished already what no other agency has been able to do, and has done it with a celerity that astonished everybody. It is my information that clues are now in hand which may lead to disclosure of more facts than have yet been dreamed of. I believe that all attempts to reform baseball by new tribunals should be deferred until we know 'who's who in baseball.'"

"No other investigating body, incapable of questioning witnesses and examining them under oath, could have turned up the crookedness that has already been uncovered by the grand jury in the short space of time in which it was done.

Judge McDonald is honest in his determination to expose all dishonesty in baseball, and I am willing to give him all aid in my power.

"I believe in making a thorough house cleaning before starting to remodel the house."

The Music Department of the Dixon Woman's club announces a recital by Sibyl Sammis MacDermid, soprano, at the Lutheran church on Monday evening, Nov. 1, which will be open to the public and which will doubtless create unusual interest among the music-loving people of this vicinity. The recital, which is one of the series of high-class musical numbers which the department has arranged for the winter season, will be advertised extensively, as the ladies are desirous of providing Mrs. MacDonald with an audience commensurate with her great ability.

She will be remembered by many patrons of the Rock River Assembly as having given a most pleasing recital here a few years ago, and many who heard her then will surely avail themselves of the opportunity of hearing her again. Gavin Williamson will be her accompanist in her concert here, and will give variation to the program by playing one or two piano solos.

Concerning Mrs. MacDermid the musical critic of the Toledo Blade says:

"We do not hesitate to say that Mrs. MacDermid is one of the most versatile and interesting singers we have heard. She has remarkable interpretative ability and possesses the power to transpose the quality of her tone to suit the song and its mood. She seems to be many singers rolled in one."

**High Court Refuses Writ in Judge Case**

This decision is in keeping with the stand of Secretary Emerson that his office in the certification of candidates is not judicial, but merely ministerial. The question arose when both the "old" and "new" republican county central committees of Cook county, presented the names of their nominees.

(Refusing to decide between them, Secretary Emerson referred the matter to the election trial board, provided for such cases, by statute. This board is composed of the Cook county state's attorney, the county clerk and the county judge.)

# Today's Market Report

(By Associated Press Leased Wire.)

## Wheat, Corn Prices Easier on Opening

By Associated Press Leased Wire  
Chicago, Oct. 15.—Absence of export demand in the United States together with word that government pressure was being brought to bear in Canada to increase the crop movement there had a depressing effect today on the wheat prices here. Trade was very light, less than on any prior day this week. Opening quotations, which ranged from 1/2 to 2/3 lower, with Dec. 2.06 to 2.06 1/2 and March 2.02 1/2 to 2.02, were followed by a slight rally, and then by a fresh down turn lower than before.

Corn was easier with wheat. After opening unchanged to 1/4 lower, including Dec. at 85 1/2 to 86 1/2, the market underwent a moderate further sag.

Oats were relatively steady but dull, opening unchanged to 1/4 higher, Dec. 56, and then relaxing a little.

Higher quotations on hogs strengthened provisions.

## Army Horse Sets New Record; 60 Mi. a Day

By Associated Press Leased Wire  
Concord, N. H., Oct. 15.—The Arab chestnut gelding Crabtree, was again to the front today when the 12 survivors of the 300-mile endurance test started out on a racing finish headed for Camp Devens, Mass. The goal was sixty miles away, but, notwithstanding that 240 miles of fairly stiff going lay behind them, most of the animals were in such good condition that their riders were able to make it a race.

The honors of the start were with Crabtree. He yesterday established a world record for sixty miles of road travel, under weight when, carrying rider and packs weighing together 245 pounds, he traveled from White River Junction, Vermont, to a point outside this city in eight hours. Officials of the race said that no such feat by a horse similarly laden had even been recorded.

## Begin Payment of French Loan Today

By Associated Press Leased Wire  
New York, Oct. 15.—Payment of the \$500,000,000 Anglo-French loan, maturing today, was begun this morning at the banking house of J. P. Morgan & Co., syndicate manager of a country wide group of banks which underwrote the loan in 1915. It is understood that payments will involve more than \$200,000,000 the

greater part of which will represent the French portion of the obligation. England having anticipated the major part of her share.

Today's payment is the largest ever made in connection with an international transaction, but banking interests believe that it will be accomplished with a minimum of disturbance to the money market.

Supervisor Thomas Long, of Harmon, was in the city today attending the McDermott funeral.

## OUR CANDIDATES

For President  
WARREN G. HARDING

For Vice President  
CARVIN COOLIDGE

ERNEST C. LUMSDEN

Rev. E. C. Lumsden, pastor of the  
Methodist church in Dixon for several  
years, has been called to a new field.  
We think Doctor Lumsden is probably  
loath to leave Dixon—he has made  
many friends here and has had splen-  
did success in his work. Besides, Dixon  
is always a hard place to leave.  
But his regrets at leaving cannot  
measure up to the regrets of Dixon  
people at his departure. Not only as a  
minister of the Gospel, but as a citizen  
and a man has he endeared himself to  
Dixonites of all denominations and  
creeds. He is a strong force in the  
upbuilding and well-being of any com-  
munity and the people of Wheaton,  
where he goes to take charge of the  
Methodist church, are to be congrat-  
ulated.

We wish Rev. Lumsden well, and  
hope some day he may come back to  
us.

## VOTE THE TICKET

The Republicans of this district and  
county have a right to be proud of  
the local ticket nominated at the re-  
cent primary and should make every  
possible effort to roll up a big vote at  
the general election Nov. 2.

From Congressman to surveyor, local  
Republicans can be enthusiastic  
about their ticket and should put  
forth every effort to get out a big vote  
regardless of the strength of the op-  
position.

We must see to it that along with  
Harding and Coolidge and the rest of  
the ticket, John C. McKenzie, is re-  
turned to Congress, Harry G. Wright  
is elected to the state senate, A. T.  
Tourtellott and John H. Byers are sent  
to the state legislature, Edward S.  
Rosecrans should be re-elected clerk  
of the Circuit Court, Mark C. Keller  
should be elected State's Attorney,  
Samuel J. Whetston re-elected Cor-  
oner and Fred W. Leake County Sur-  
veyor.

The ticket is a good one. The men  
named are capable, honest, efficient  
and a credit to the party. Do not fail  
to vote for them.

## HOSPITALITY

The week beginning Oct. 25 will  
bring hundreds of school teachers to  
Dixon, especially the last half of the  
week, when the Northwestern Illinois  
Teachers' Institute will meet here. It  
will be impossible to house all of these  
teachers in the hotels and rooming  
houses and it is up to the people of  
Dixon to open their homes to the vis-  
itors.

Dixon is glad to have the teachers  
here. We want them to like us and to  
come again and to go home with a  
favorable impression of Dixon and her  
citizens. Let us show them real  
hospitality and courtesy. If you are  
willing to give rooms and breakfast or  
merely rooms to the visitors for a  
nominal fee, telephone Secretary King  
at the Chamber of Commerce head-  
quarters.

## A FOOLISH THEORY.

It is a matter of daily occurrence  
to hear parents say that it is useless  
to keep their children away from their  
playmates who have any of the com-  
municable diseases of childhood, in  
fact, some even expose their children  
to such diseases on the theory that it  
is better for the child to have the  
disease early in life, and be over with  
it.

Nothing is more foolish than this  
theory. It is absolutely unnecessary

## ADVENTURES OF THE TWINS

by Olive Roberts Barton

### A STRANGE DISEASE.

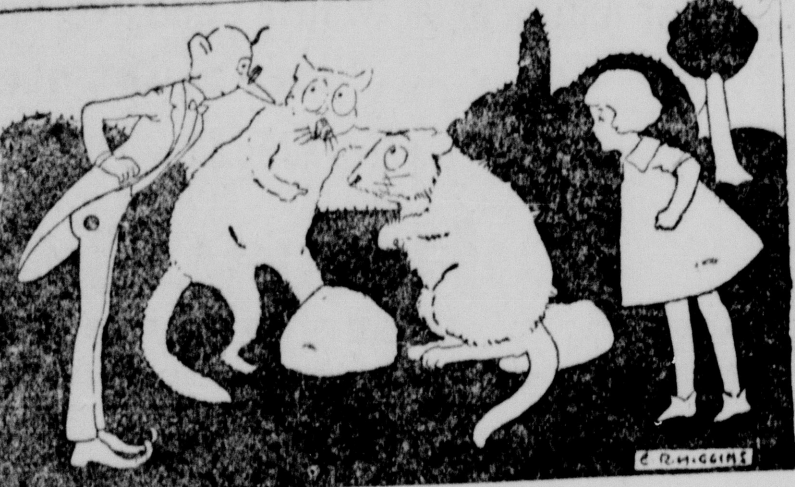

"Yes," said Dr. Mink, looking down  
at Markie Muskrat's chair with a  
queer look on his face, "it's a very  
strange disease this chap has. Mr.  
Scribble Scratch, a very strange one,  
indeed! It's called 'stuckankantmov-  
which.' The person who has it can't  
move at all!"

"You don't say so," exclaimed the  
fairymen schoolmaster. "I never heard  
of it before, did you, Nancy?"

Dr. Mink looked very learned. "For-  
tunately, I do know. The secret of  
curing this strange disease was told  
me by my great-grandfather's niece's  
cousin's sister-in-law's brother."

"Fine!" cried everybody at Dr.  
Mink's words and even the other pupils  
in Meadow Grove School were so in-  
terested that they quite forgot to sit  
in position, and Ecampier Squirrel fell  
off his seat altogether.

"But I must have help," went on

"YOU DON'T SAY SO," EXCLAIMED THE FAIRYMAN SCHOOLMAS-  
TER. "I NEVER HEARD OF IT BEFORE."

Nancy hadn't, neither had Judge  
Crow nor Prof. Hare nor Mr. Chuck  
nor anybody.

"Is it a kind of paralysis?" asked  
Scribble Scratch anxiously, feeling  
sorry that he had ever scolded Markie  
for anything.

"Sort of," nodded Dr. Mink, "only it  
doesn't last so long, and the only  
way to cure it is very difficult to learn.  
Very few people know how."

"Oh," cried Nancy very much wor-  
ried, "don't you know, Dr. Mink?  
Won't poor Markie ever be well

again?"

Dr. Mink was getting very uncomfort-  
able, not so much because the chew-  
ing-gum he was sitting on was pulling  
every hair out of him, nearly, but be-  
cause he felt guilty. He sort of felt  
that he needed a good trouncing and  
it would be a lot better if someone  
would just give it to him and have it  
over with.

#### MOTHER IS IN THE MINORITY ON THE CIGARET ISSUE

"What do you think?" asked Daddy  
Lorimer, of no one in particular, as  
the family sat on the lawn about the  
coffee urn, one evening after dinner.  
"Annstine is going to open an elegant  
new smoking room for women in his  
theater next fall." Daddy surveyed  
critically a fresh box of cigars the  
butler had just opened for him. "I  
heard Annstine telling about it today.  
He said the women smoked all over  
the place last year—in the lobby, the  
wash room, the check room, and the  
foyer. 'No smoking' signs never hin-  
dered 'em! So he's going to make his  
new smoking room for women espe-  
cially attractive. Decorations will cost  
him \$15,000! I suppose Chrys and Ann  
will find a theater smoking room a  
great convenience. But I can pick  
one little girl that will never see the  
inside of it!"

Daddy smiled upon me most ap-  
provingly. I blushed furiously. I knew  
that I ought to confess immediately,  
but if I did, I'd spoil the grand sur-  
prise I had planned for Bob's vaca-  
tion.

Ann giggled. That settled it.  
"I can smoke, daddy! I've just  
learned! Ann says I do it beautifully!"  
I heard mother's astonished protest:  
"Why, Janie dear!"

Then daddy challenged me:  
"Bet you can't! Let's see you!"

"Now, father!" exclaimed Bob. "All  
she's waiting for is your encourage-  
ment!"

"Don't pay any attention to daddy!"  
"He's only joking!"  
"Really, he doesn't want to see you  
smoke!"

The babel of voices helped me out of  
my difficulty. Virtue, it appeared, was

for a child to have any of these, and  
it is a crime thus to expose them.  
These diseases are not the simple thing  
that many think. Each one is dan-  
gerous, and frequently leads to  
death, or leaves the victims with oth-  
er disease conditions which remain  
with them for a long time and cause  
untold suffering.

Measles may be followed by a  
bronchitis or pneumonia, whooping  
cough, by a bronchitis, pneumonia or  
heart disease and scarlet fever by dis-  
ease of the heart or kidneys, or of  
the ears. The latter is one of the  
most frequent causes of deafness in  
children. Therefore, it will be seen  
that children exposed to the "ORDIN-  
ARY" diseases of childhood are not  
exposed to these diseases alone, but  
to many other very serious and often  
fatal ones.

strongly bolstered up by all the sin-  
ners! So I shook my head at daddy.  
The next time he passed me, in his  
slow after-dinner promenade, daddy  
paused long enough to tootle my hair.  
It is his favorite way of teasing it, as  
the family well knows. I don't mind  
it, except when we have guests.

"Better get it bobbed, Jane," advis-  
ed Chrys. "Then the more father  
musses it up, the more fashionable it  
will look!"

"I'm not ready to stop talking about  
cigaret smoking for women," said  
Mother Lorimer.

"Cropped hair goes with cigarettes,"  
remarked Chrys.

"If Chrys and Ann smoke, I want  
Jane on my side," said mother.

"Yes! Let's keep this house 50-50!"  
interrupted Bob. I glanced at my hus-  
band. He hadn't, by a sign, seemed  
disturbed by the information that I  
knew how to smoke. It was so like  
him to keep still about the matters  
which bothered him most.

"The use of cigarettes by women was  
condemned in a resolution adopted by  
the General Federation of Women's  
Clubs, recently in session at Des  
Moines," Mother Lorimer went on.  
"That is the best evidence, it seems to  
me, that the cigaret habit is increas-  
ing to an alarming extent among the  
women."

"Some of the religious organizations  
deplore that increase as 'appalling,'"  
remarked Chrys. "Here—let me read  
this: 'The sedentary life of women  
encourages an excess in the use of to-  
bacco and produces more serious re-  
sults than is caused by its use among  
men. The evil effect of tobacco upon  
women is similar to its effect on im-  
mature youths.'"

"There! I always knew there must  
be a scientific reason why smoking is  
bad for women—and not for men!"  
chuckled daddy. "Nevertheless, I be-  
lieve the federation advocated an ed-  
ucational campaign against cigaret  
for men. By the way, Bob, what have  
you got? This cigar is too heavy!"

Bob produced his cigaret case. Ann  
and Chrys flew to daddy's side with  
their own extended for him to select  
from.

"Jane, we're very much in the mi-  
nority," sighed mother.

"Have some candy," I suggested,  
and I passed her crystal bowl heaped  
with bon bons.

"No, thank you, my dear!"  
"Mother's a wary one," chuckled  
daddy. "The candy habit is just as  
bad as the cigaret habit. Hey, moth-  
er?"

"Worse!" commented Chrys.

"Much more expensive!" said Ann.

## ILLINOIS PLAYS BIG GAME IN CONFERENCE SCHEDULE TOMORROW

Early Dope Favors Iowa to Take Contest at Urbana Saturday.

### ILLINOIS SCHEDULE

Oct. 16—Iowa at Urbana.  
Oct. 23—Michigan at Ann Arbor.  
Oct. 30—Minnesota at Urbana (Home Coming)  
Nov. 6—Chicago at Chicago.  
Nov. 13—Wisconsin at Madison.  
Nov. 20—Ohio at Urbana.

Urbana, Ill., Oct. 15.—Illinois opens her conference schedule Saturday when the strong Iowa squad, led by Coach James, comes to Illinois Field for a game which may prove to be the championship battle of the Western Conference year. The loser of the game will be eliminated from the conference race, while the winner will have an even chance at whipping the remaining foes on its schedule.

Both Coach Jones of Iowa, and Coach Zuppke of Illinois, realize that everything depends upon the result of the game, and both will be ready to turn every trick in the football category to enable his team to leave the field victor. Sport writers from throughout the central states expect this clash to be one of the season's topliners, and are consequently journeying to Urbana to witness the event.

Early dope points more favorably to Iowa. The visiting team is almost intact from last year and has piled up top heavy scores in early season games. Illinois on the other hand, in addition to losing many valuable men off last year's championship squad, is handicapped by scholastic difficulties and early season injuries. However, the well known Illinois fighting spirit must be taken into consideration and may be sufficient to overcome any advantage which Iowa seems to have.

## TANLAC DISPLAY

## MAKES GREAT HIT

## Unique and Attractive Display of Celebrated Medicine Attracts Much Attention.

An advertising display which has attracted unusual interest, has been placed in the show-window of the Public Drug & Book Co., on First St., in this city, the local agency for the well-known and highly successful medicine, Tanlac.

The display is not only interesting from an advertising standpoint, but is educational, combining in an attractive and artistic manner beautiful scenes from many foreign countries where the ingredients of this preparation are obtained.

It has occasioned such favorable comment in the city that the proprietors of the store state that it will remain in their window several days longer.

## Work of Great Artist.

The display is the work of one of America's greatest lithographic artists and the manufacturers of Tanlac state that the total cost will exceed sixty thousand dollars, which is said to be a record price for window displays. It is in ten distinct and natural colors, and presents scenes from the Rock Mountains, as well as from Europe, Asia, Peru, Egypt and other foreign countries.

The natives are seen in their natural

habit at and environment, gathering the roots, herbs and barks that form the medicinal ingredients of Tanlac, packing them upon the back of camels, elephants, llamas and other beasts of burden for transportation by land and sea to the immense laboratories at Dayton, Ohio, and Walkerville, Canada.

One of the most striking features of the display is the reproduction of the magnificent laboratory at Dayton. Here the artist has very effectively and impressively portrayed the popularity of Tanlac by introducing a group of people in all walks of life, who are looking at the Tanlac laboratory with expressions of confidence, plainly indicating their belief and faith in the medicine.

Another distinctive feature is the bulletins accompanying the display. They tell briefly and concisely of the marvelous growth and development of Tanlac, until today it has the largest sale of any medicine of its kind in the world. These bulletins also quote various standard medical authorities as to the therapeutic value and physiological effect of the medicine.

60,000 Bottles a Day.  
From these bulletins one also learns that the new Tanlac laboratories at Dayton and Walkerville have a combined daily capacity of 60,000 bottles and that the medicine is now selling

at the rate of approximately 10,000,000 bottles per year.

That Tanlac is a preparation of exceptional merit has never been disputed, which accounts for its tremendous popularity and large sales throughout the country. It is a powerful reconstructive tonic and body-builder and has a far reaching and most beneficial effect upon the entire system. Many strong local endorsements, from those who testify as to the benefit they received, have appeared in the columns of this paper.

The manufacturers of Tanlac are firm believers in newspaper advertising and have forcibly presented to the public the merits of their products in this way. Their total annual appropriation for newspaper space exceeds one million dollars. Their copy appears in practically all of the leading daily and weekly newspapers throughout the United States and Canada.

Although the United States uses twice as much petroleum as the rest of the world, its potential supplies are only one-seventh of the world's total.

# HARDING DISCUSSED FOREIGN TRADE AND WORLD ASSOCIATION

(Continued from Page 1)

American honor and American commercial practices, and it has been Democratic policies which have wasted their energies in obstruction and withering interference.

## Success Not a Crime.

I have said that success is not a crime. It is not a crime, whether an enterprise is carried on at home or whether American enterprise is sent forth to do service abroad. If I were to speak to you for the prosperity of American business I would speak to you only as I would speak to the laborer, just as I would speak to the banker, I would speak to the professional man and the clerk and the school teacher and the housewife just as I would speak to the American manufacturer and the wholesaler.

We all depend no matter how humble we may be, upon the part we play in the great plan of organized industry, organized production and organized foreign trade, created of America's genius, and maintained by American honor.

## Expansion of Foreign Trade.

The expansion of American foreign trade depends in great part upon the intelligence and co-operation of you, the American people. Its prosperity is your prosperity, its stagnation is your stagnation. You will require, as I will require, that our foreign trade shall be honorably conducted, but you will know as I know, that we must take our place efficiently and fully in the great exchanges of the world.

These great exchanges of the fruits of man's labor and of lands far apart are not dishonorable; they are indeed the only basis upon which civilization advances. I want it understood that I have no agreement with those who feel that when a strong people trade with a weaker people fairly, that this constitutes exploitation. The history of the world shows that it constitutes for the weaker people, salvation.

I want to see America do her part. I want to see her recognize that, just as she recognizes that the shuttles of her own internal business knit the nation together, so also will her foreign trade help to knit the world together. I want to see America develop her foreign trade to its full capacity.

I want to see her in friendly competition based upon genius and science and not upon force. I want to see her keep up with the strong and do her part to help build up the weak.

**Not More Peddling.**  
We would be old-fashioned indeed if we continue to believe that foreign trade is created merely by producing something which might be sold abroad. The modern world with its modern

business and its greater competition has gone far beyond that simple notion. Once upon a time a clipper ship could load unordered goods in a New England port and see them out of the hold on the coast of the China sea. When some of our American people have awakened to the fact that foreign trade is not mere peddling of goods, when all of us take more interest in learning about the world and less interest in teaching the world there will be a better appreciation of what it means to every man, woman and child in America to build up our foreign trade, and a better appreciation of how it must be done.

Foreign trade I believe stands upon a tripod. It stands upon: First, international finance, banking exchange and credit. Secondly, it stands upon the development of a merchant marine. And thirdly, it stands upon production and intelligent salesmanship. These three may be obstructed or they may be added, protected and fostered by our government. I want it to be understood that I am in favor of our government aiding protection and fostering all three.

## War a Great Teacher.

If the American people were unaware of the part which finance and credit play in foreign trade, the experience of the war has been a great teacher, and has made clearer and more simple the part which credit and finance play in all international trade. We experienced the prosperity which came from selling great quantities of goods to foreign countries, but much of this exportation could never have been made if America, through its investors, had not loaned these foreign countries the money with which to pay for the goods that we sold.

To be sure, in the long run, such loans must be paid in the form of money which represents production in those foreign countries, sold to some one else or to us. If sold to us, I shall insist upon a tariff duty which will protect our wage-earners in their American standard of living. In the long run, foreign trade is based upon the exchange of commodities, but it

would be impossible to conduct it with any readiness, flexibility or success without the use of money and the instruments of financing and credit. The extension of credit or the loaning of money to foreign governments or foreign buyers, to enable them to purchase our goods, is a matter which must interest the people of America because it is by their investments in the credits and loans given to foreign states, cities, companies and individuals who will be sure to repay, that our foreign trade will have a wholesome life.

## Not Wise Government.

I am not in favor of the government, whether from benevolent or business reasons, going into the practice of extending loans and credits to support our foreign trade. I am against this because it is outside the function of a wise government, and because there is less a sense of responsibility upon the part of officials who handle the tax-payers' money than there would be if the tax-payers made their own decision to invest in foreign securities. It is an unfortunate thing for foreign trade when the people are unwilling to invest in foreign securities because this either means that foreign trade, based upon the extension of credits, is stifled or that the banks of America have to undertake to draw upon the resources to an extent which disturbs and endangers the stability of our financial system. Let us make no mistake, however. We can not compete upon equal basis with a country whose people are willing to invest in foreign loans and credits, until the people of America, who can invest, have available the enlightenment and information which will cause them to back up our foreign trade.

## Upbuilding of Merchant Marine.

Essential to our upbuilding of foreign trade and to its protection, and that of our country, in war, is the upbuilding of our merchant marine. This is a matter which does not, as some people suppose, merely concern the seaboard of our country; it concerns the interior just as vitally. The time

is ripe for us to make sure that we hold the position into which we were brought by the war, after a century of disintegration of American shipping. The bondholders and taxpayers of the United States have invested three billion of dollars in new vessels. We now have at our command a greater gross tonnage than any but one nation in the world. The war nearly sextupled our merchant marine capacity and in the year 1919, for the first time in fifty years, more than twenty-five per cent. of our imports and exports were carried in American bottoms.

I am in favor of holding that advantage. I am in favor of the enforcement of the Jones act which was intended to make it possible for use to hold that advantage. I have no hesitation in giving full condemnation to the failure of an administration to put into effect the bidding of congress. I am for a growing American merchant marine.

## For a World Association.

I believe that our first duty, having rejected, as we have rejected, the impossible and dangerous betrayal of America as expressed, for instance, in Article 10 of the league of nations, is to set our faces toward an association with the other nations of the world under which each may be free to express and maintain its own nationalism, but in which, the mutual commercial and trade problems may be worked out. I regard such a policy as perhaps the greatest contribution that can be made to create bonds for the maintenance of the world's peace. I regard such an arrangement, to which I have assurance the other great nations would be willing par-

ties, as one step in a policy of upbuilding our foreign trade.

But this is not enough. We need a complete new policy. There is no doubt in my mind as to what that policy should be. You may be sure that it includes a firm determination to protect all Americans wherever they go upon their legitimate errands. You may be sure it includes a determination to gather and make available, for the information of the president of the United States and his secretary of state and the business men of the United States, current, dependable information on what is going on in the world. Secrecy in diplomatic affairs is sometimes necessary, and it is hypocrisy to pretend that the contrary is true, but when I am elected there will be a minimum of such secrecy rather than a maximum.

You may be sure that I recognize the fact, for it is a fact, that there is less co-operation between our government acting as a government and our foreign trade than in any other large commercial nation in the world. I do not intend that this shall continue.

## Differs From Other Capitals.

Washington, the seat of our government, differs nowadays from every other great seat of government. It is not a capital in which any substantial part of the nation's business is done. I believe that this is a most fortunate fact, and that because of it our government is able to consider great questions apart from the activities of commerce.

But we must recognize all the more the necessity for our government being apprised of the needs and conditions of American business and particularly of foreign trade. The gov-

ernment must serve the people and their interests. That is one of the reasons for its existence. And at the present time its service can not be efficiently given to assist in building our foreign trade without a reorganization of our state department and our department of commerce. The American business man is confused because both of these departments are doing overlapping work and are sometimes coming into conflict, so that the very person to whom they might give help is referred by one to the other and back again. Under the state department, the consuls are gathering trade information, under the commerce department the same information may be gathered by the commercial attaches. The policy of the state department toward American foreign trade may be one policy and the policy of the department of commerce may be another. There must be an early solution of the difficulty. One possible plan is to place under the state department the determination of policies, the furnishing of information and the giving of assurance of aid and protection which affects American foreign trade.

## Another Possible Solution.

Another possible solution is that of a special department, sponsored by the secretary of state and the secretary of commerce, so that we may efficiently direct all our energies under one definite program.

I do not regard a vigorous policy for the protection and the upbuilding of our foreign trade as being lacking in soul and idealism; I regard it as being a policy of that practical idealism toward which the nation, with great relief, is now turning. I do not regard American foreign trade as being contemptible or sordid business; I regard it as the concern of all Americans in this fabric of our national life. It is their ambition for their own prosperity, but because it is through our foreign trade, as much as anything else, that we can spread the ideals of America to all the seas and to all the continents and to all the peoples of the earth. It is through our foreign trade that we can most honorably perform our obligations to mankind.

"I've always envied Sybel the ability to keep her hands so soft and white—so young looking! Wind and sun never seem to effect them at all, and yesterday she told me her secret."

"Age, my dear? Why even before the crow's feet and tell-tale wrinkles appear, your hands tell the story."

"Women spend all kinds of money in beauty parlors fussing over their faces while their hands not only keep pace with time, but even go ahead of it."

"I'll never forget how particular old Nanette was with dear mother's hands. Every night she carefully massaged them with cocoa butter. Scarcely at the finger tips she rubbed them gently until the cocoa butter disappeared, which showed that the skin had absorbed the nourishment."

"How Nanette would have loved Coco-Bloom, my cocoa butter cream, for Coco-Bloom contains not only cocoa butter but other ingredients beneficial to the skin. It's a genuine pleasure to use this delicious, smooth cream after you've spent an afternoon motoring or on the links playing in the sun and wind. I never wear gloves and I maintain elasticity as I rub in the Coco-Bloom."

"Another thing—you remember that ugly sore on my wrist when I was burned when that gasoline exploded at camp two years ago? It has almost disappeared since I began using Coco-Bloom."

"Remember, Coco-Bloom is *cocoa butter cream*, and it supplies exactly what is needed to make your skin healthy."
